PROFESSIONAL SUMMARY

As a skilled full-stack mobile app developer, I specialize in crafting and coding dynamic mobile applications across multiple platforms. With a strong background in both front-end and back-end development, I ensure seamless user experiences while staying abreast of the latest trends and technologies in mobile and web development.

EDUCATION

Bachelor Degree, Computer Science, University of Somalia **August 2023**
- GPA: 3.89

WORK EXPERIENCE

📍 *London, United Kingdom* · **Remote**
Junior Software Engineer, Frigate Global **June 2024 – Present**
At Frigate, I develop and manage the admin portal using React and Tailwind. I implement new features, optimize user interfaces, and ensure responsiveness. I also assist in backend tasks, maintain version control with GitHub, and participate in daily stand-ups.

📍 *Hargeisa, Somalia* · **Full Time**
Software Developer, Ministry of Finance Development **December 2023 – Present**
Fast-forward to today, and I've had the privilege of working at the ministry of finance in my country. My main focus these days is Developing and maintaining Mobile Apps & client-side web applications at The Ministry of Finance

📍 *Hargeisa, Somalia* · **Hybrid**
Intern Full Stack Developer, Som Digital Agency **May 2023 – October 2023**
Internship at SomDigital, I was responsible for developing and maintaining web applications. This involved coding, testing, and debugging, as well as collaborating with senior developers and design teams to create user-friendly interfaces.

PROJECTS

Developer, Book Store Application **2024**
A cross platform app that allows users to buy books
- Maintained the base code of the app with the use of React Native(Expo)/ Expo Router V2
- https://github.com/husseinmomd/Book_Store_App
